Brussels, 4 September 2019

Dear Colleagues,

On behalf of EPSU, the European Federation of Public Service Unions and Europe's voice for workers in public services and in health and care, I wish you success with the actions of today. Workers in the health and social services deserve a pay increase and correct pay and conditions. We support your action that it is 5 for 12 for the health care system.

It is not acceptable that the government is seeking to intimidate workers who want to be informed about the state of the negotiations, the lack of concrete proposals from the government that satisfy the workers' demands and to discuss the future of the health system during their breaks. The employer does not control what we debate during this time.

We wish you a successful action today.

Yours faithfully,

Jan Willem Goudriaan
EPSU General Secretary

EPSU represents 8 million public service workers in more than 260 trade unions in all European countries. It is the largest Federation in the ETUC and part of PSI, the global federation of public service workers.
